

Dr. Hans A. Küpper, Partner.

Dr. Hans Küpper has over 30 years of experience in the field of biotechnology in areas from research up to R&D management, technology assessment and business acquisitions. He received his PhD from the University of Heidelberg in 1974. After additional academic research at the Massachusetts Institute of Technology and Heidelberg University, he joined Biogen, Geneva, in 1980, where he held various R&D positions, the last as Assistant Research Director. In 19885, he joined Behringwerke AG, Marburg, to build up and head the Molecular Biology Department and thereafter became Head of R&D of the Immunology/Oncology Business Unit. Since 1991, he was increasingly involved in deal negotiations and various aspects of company restructuring such as acquisitions, spin-offs and joint ventures. In 1999 he joined Global Life Science Ventures, Munich, and is board member of several portfolio companies. Dr. Küpper is author of numerous publications and patents/applications. He served as consultant to the Pharmaceutical Industry and the European Commission.

Dr. Peter H. Reinisch, Partner.

Dr. Peter H. Reinisch is a Partner of Global Life Science Ventures. He has over 21 years experience in the life science industry that include senior management positions in the Corange group and from 1995 onwards the setting up of GLS I. He is a board member, or attendee, with a number of portfolio companies, five of which are already public - four by initial public offering, one by merger.

Prior to Corange/Boehringer Mannheim Dr. Reinisch held positions of increasing responsibility with Brown Boveri, the Institute for Automation, the Denner Group and McKinsey and Co., where he concentrated on high technology industries. He became CEO of Pfister, one of his clients.

Dr. Reinisch first studied mechanical engineering, then graduated summa cum laude with a doctorate degree in Business Administration (Betriebswissenschaften) from the Technical University of Vienna.

Hanns-Peter Wiese, Partner.

Mr Wiese, Dipl.-Kfm., has thirteen years experience in venture capital. His exposure to early stage investing in the life sciences reaches back to 1996, when he co-set up the predecessor fund Global Life Science L.P. as a Managing Director of its fund advisor. Previously, he was a Director of Corporate Finance with Bayerische Vereinsbank, and Director of their associated VC-fund Euro Synergies in Paris. Besides its turnaround, accomplished in a new small team, he arranged private equity financings including MBO/MBIs of medium-sized companies across various industries throughout Europe. Several of the investments completed are now listed on European stock exchanges. Before that Mr Wiese was Investment Manager with 3i in Frankfurt. There he worked on a number of leveraged transactions, providing growth & development finance as well as management buy-out/ buy-in solutions to the typical German Mittelstand. Mr. Wiese's responsibilities include the partnerships' financial, legal and administrative issues which comprises the monitoring of all portfolio companies following several exits through IPO/ M&A. He speaks fluent English and French.
